

## **FREQUENT QUESTIONS**

### **Q: Which style of outdoor kitchen do you offer?**

A: We have four different styles in our range:

C1 – our most popular look. All the features of a luxury, contemporary German indoor kitchen, but like all CUBIC furniture it will be waterproof and configured for outdoors.

C1 PURE – is a further variety of C1 offering LED-lit cabinets and mitred doors & drawers with a shadow gap plinth.

C2 – a more minimalist style with integrated doors & drawers and without a plinth.

C3 – just like C1 but can be partially or fully clad in our range of ceramic finishes.

C4 – our more traditional look, with or without door handles.

### **Q: What are the unique features?**

A: All Cubic furniture is made from the highest quality materials.

Made entirely to the client's individual specification

The use of long-lasting and hygienic materials throughout

It is weatherproof

It is waterproof\*

Any colour

Each kitchen will be supplied fully assembled\*\*

### **Q: What appliances can I have?**

A: There is a wide range of quality built-in gas or charcoal grills to choose from - Flammkraft, Fogher, Bull, Beefeater, Napoleon, Fire Magic and Wolf, for example.

Also:

Kamado (Green Egg, etc)

Side burners

Sink & tap with optional hot water heater

Integrated fridge with freezer compartment

Cooling drawer

Wine drawer

CASO wine/beer coolers

Teppanyaki plate/plancha

Induction hob

Dishwasher

Dishdrawer

A list is available in the Fact Sheets, downloadable from the CUBIC business portal.

**Q: Are there any other options?**

A: Please ask if your favourite outdoor appliances such as a Blastcool fridge, a Traeger pellet stove, a tandoor, an icemaking machine, a Quooker tap or a charcoal grill can be integrated. Usually, the answer is 'Yes'!

**Q: What material is used to make the cabinet modules?**

A: The unique Cubic material is an engineered wood which is completely water-resistant. It is used for the doors, drawers & shelves – and most of the carcass. The manufacturer offers a 50 year warranty.

**Q: What is the choice of colours for the cabinets?**

A: There are eight standard colours in our special paint, or any RAL/NCS colour can be specified at extra cost. Two paint finishes to choose from – sanding pattern or powder coat.

**Q: Is there a choice of worktop finishes?**

A: Yes, there are six standard hygienic ceramic finishes and other finishes and options including stone are possible. Ask about other options.

**Q: Can I choose the thickness of the worktop?**

A: There are three standard thicknesses – 16mm, 35mm and 50mm. But as we are CUBIC, everything is possible!

**Q: Can I get waterfall ends?**

A: Yes.

**Q: What is lamella?**

A: Lamella is our unique hardwood slatted feature which can be applied to our doors, drawers or the rear of an island, for example. There is a choice of four sustainably-sourced hardwoods.

**Q: Does CUBIC use stainless steel for door hinges, etc?**

A: Yes, of course.

**Q: What is the lead time for manufacture & delivery?**

A: Each kitchen will be individually made to the client's specification. Lead time is typically 8-10 working weeks, plus shipping in state-of-the-art export crates. The kitchen will be pre-assembled in the factory as a final quality control measure making onsite installation swift & straightforward.
